this took a very long time for you to respond to me deanof students. My withdrawal was done while I had clinical brain damage and it most certainly is possible for you to reinstate me and let me do my repeat, regardless the second part of your email is far more important and the other parts extremely condescending.

my application to that post graduate course is was denied based on prejudice that you continue to contributed to.

I outlined that to you and I've already informed your office that I have applied to the Ombudsman for advice on this that's already been put through your advice is negligent. they take so long to process such complaints that it won't be processed for the academic year 2526.

I was refused a place on a course that I am academically qualified for based on prejudice the two reasons given were that I'm already qualified teacher - I didn't qualify in English so that's irrelevant and and also that computer science isn't a subject on the course when it is no valid reason was given by the interim deputy president to appeal my claim or accept a complaint against Natalie Walsh, what they said to me was outright

false and prejudiced and then she was in charge of the appeal process herself and she declined to accept the complaint. I have contacted the ombudsman already they take weeks to investigate. You could do this internally and you still have not replied to me about my NUIG security complaint, true or false?

The complaint I submitted in September 2024 which you did not reply to and now you were claiming as I am no longer a student as I withdrew while I had brain damage you don't actually have to treat that complaint accurately morally so you are complicit in this ablest refusal for me to be granted the MGO course true or false and slander of me around campus true or false? damaging the safety of me and my younger sister e.lyons17@universityofgalway.ie true or false? and you think the logical step is to not apologise and to double down on this PSYCHOLOGICAL DISTRESS - that doesnt mean i need you to be a guide dog to refer me to homeless cope or academic services that means I need you to follow the LAW as again a civil case or criminal case would hinder both ME and our UNIVERSITY

you have claimed that I'm no longer under the protection of the policies of the university that is untrue. I am a graduate. I am a user of an external account in a library. I began the complaints procedure in 2024. You summoned me for a meeting that lead to clinical brain damage. Your response is philosophically biased - i am no longer brain damaged and I want to discuss the trauma you

caused me in your false accusations claiming I was a threat to campus and sent inappropriate emails which is UNTRUE

I want to go through EACH AND EVERY ONE and TEACH you how you are wrong. That IS my right Ciara.

I have been the victim of a hate crime by your security and your prejudice against me. I submitted to complaint while I was a registered student and you purposefully stonewalled me out of it causing vile rumours to spread around campus but I'm literally a sexual predator paedophilic rapist. And the bouncer I complained about again still won't give me his badge number and you put pressure on students union not to get it for me and he touched me inappropriately yesterday? That makes you culpable. Please grow up and stop being offended by my innocence. You are the second best Dean of Students we have ever had but you are COMPLETELY wrong about me.

And also furthermore the bouncer who committed a hate crime against me who I emailed you about previously how is he still allowed to work on staff at this university of sanctuary? you allowing that puts other disabled and minority students at risk

Why are you waiting for the ombudsman to tell Becky Whey and Natalie Walsh that actually I did fucking qualify for that course and I need it to be given to me

due to my disability of complex post-traumatic stress disorder that your university diagnosed me of

You are so ableist that you think I'm lying about the severity of my trauma and how much your deflective response has hurt me
You are so sexist that you think the man must be wrong

you are so egotistical that your title has gone to your head because you have a simultaneous role as someone who criticises student behaviour and you forget that the dean of students is supposed to fight for the rights of all students including the poor the homeless the invisible disabled and the severely educationally abused like me

You referred me to cope Galway insinuating that I need help from them who I need help from is you, Professor Meehan, as explained in previous emails.

You never processed my complaint against the bouncer of sult bar who is still around causing problems or the NUIG security team who lied about the time they abducted me illegally from the engineering building because they taught my student number 11476078 was fake

When I withdrew from the higher diploma I had clinical brain damage and due to dissociative amnesia caused by me suddenly having to call for an ambulance for

my grandmother I forgot that I withdrew that doesn't make me fucking crazy. That makes your response to me so un empathetic because I am capable of being reinstated doing my repeats paying my fees, everything you know very well but that's possible and you know very well if you look at my ISS it says registered and withdrawn. I have a right to access my email address but I can't because it says blocked you told me I could access my lecture notes. I have a right to access my email address. You promised me and then I was placed on brain altering chemicals due to your false accusation of being a threat causing physiological brain damage I don't need to be referred to some mental health disorder charity or cope Galway that don't help the homeless I need you to do your job

that doesn't mean you get to cling onto that and treat me like a fucking stranger. I was at this university far far longer than you. This isn't verbal abuse in an email. You just gaslit me in a position of power.

You just extended the trauma of this whole kerfuffle

I was a fully registered student in the summer of 2023 when security told Noel McNamara of the College bar that I wasn't which made me look like a sexual

predator because I was using the shower in the engineering building which every fucking student has the right to do, including those who have done undenominated a computer electronic engineering like me

You never processed that

What is it that you do then because I guarantee you you barely get any emails except from me?

Furthermore, academic references have been revoked from me based on the assumption that your accusations of me are valid

Why are you waiting for me to contact the Ombudsman about you? You're an embarrassment to yourself you should be apologising me to me and you should be giving me the MHO that I qualify for.

I didn't qualify in Irish. The Irish language is therapeutic to me. They do offer computer science. The module is on the MGR website. The reasons for dismissal of letting me in the NGO were false. Why are you waiting for me to contact the ombudsman? Why don't you offer me the fucking course that I qualify for? Oh wait I know why? Because you have a vested interest in hindering my access to university resource resources in breach of the equal status act 2008 2018 true or false?

I am using speech to text you cause an emotional flashback that's not variable abuse any profanity has been directed and in adamant object who do you think you are?

For legal reasons and your assumption that I'm intermittently psychotic even though that has been expunged and was a false diagnosis from professor, McDonald who finally admitted his conflict of interest I must admit I'm using speech to text so any typos and due to my clinical brain damage of the capacity or do we read any typos in any interpretation of your written of your reading of this written text? Is your prerogative?

Your response to me was nasty. Why are you referring me to go away? Resources I already know about? My issue is with your illegal refusal of my application to the MGO illegal completely in breach of the equal status act after the office of the president told me my application would be treated WITHOUT prejudice

Natalie Walsh broke the law from deputy president Becky Way refused my complaint. That's a breach of law. You're not supposed to treat me less fairly just because I graduated I am still in registration with the disability office under Maeve McAldan . You summoned me for a meeting a stage three meeting you placed me on precautionary suspension you promised me a few things and you

never delivered you slandered and destroyed my teaching reputation so severely I am a current external user of the library. I do actually have the right to eat in the College bar, but you told them I don't that's a breach of the equal status act Ciara.

Your simultaneous role as being of students and Dolores Umbridge is blinding you in this case

my qualification as a teacher and registration on the teaching council certainly doesn't preclude me from doing an Irish language course to get further experience at Cillian occur about where I'm fully welcomed where I was a student myself and where I could chip away at Droichead Requirements while retaining my Disability Allowance for CPTSD

Previous false accusations of psychosis schizoaffective and bipolar effective disorder due to Professor Colm McDonald's conflict of interest have been made inadmissible due to him being removed as my psychiatrist by the medical council after I complained to them you are treating me like I'm schizo when I'm traumatised and you keep traumatising me because you keep treating me like I'm not registered with the disability office of NUIG who diagnosed me with anxiety and trauma

Respond to me more professionally and explain to me why my MGO application

was declined. I can't afford to reapply my €100 was stolen from me. I fully qualify for that course fully qualify fully fully qualify based on the academic merits that I struggled through palliative care through educational abuse by Mary Fleming through multiple other traumatic experiences, homelessness and slander and defamation and everything and you are treating me like a liar Ciara Meehan me in like a liar and a cheater.

and yes, regardless what a consultation with the NUG legal team or with your acquaint understanding of the law states to you if I initiate a complaints process that you haven't replied to I remain protected by the policies of the university that is a fact professor Meehan a fact because you pressured me out of that course you and your defamation of me because everyone thinks I made a false complaint about NUG security when in fact no word of a lie was in it so when are you planning to meet me about that complaint love?

I am a gender fluid bisexual virgin rape victim before you pull that card getting offended that I called you a Shantalla-twang love.

Dear Cian,

Thank you for your letter. We are sorry to hear of your ongoing difficulties and hope things improve soon.

We would like to clarify your registration status at present.

The position is that you are not currently registered with the University. You were registered previously for the Ard-Diplóma sa Ghaeilge Fheidhmeach. However you withdrew voluntarily from that course on 5 December 2024 by

email to the Secretary for Governance and Academic Affairs. At the time of the withdrawal, a process was underway pursuant to QA269 Support for Students in Crisis Policy<<https://www.universityofgalway.ie/media/studentservices/files/QA269---Support-for-Students-in-Crisis-Policy.pdf>>/ QA269-Tacú le Mic Léinn atá i Sáinn<<https://www.universityofgalway.ie/media/studentservices/files/QA269-Tac%C3%BA-le-Mic-L%C3%A9inn-at%C3%A1-i-S%C3%A1inn.pdf>>. This process was at at stage 3. Once you withdrew, this process was discontinued. Therefore it would not be possible to have this meeting now.

More recently you have applied to do Mháistir Gairmiúil san Oireachas and have not been accepted. This refusal was appealed to the University and Prof Becky Whay confirmed the University's decision to you on 26 June 2025. This concludes your internal appeal process in the University and your next option is to refer the matter to the Ombudsman. The best way to contact the Ombudsman is by:

Clicking on the 'Make A Complaint' link at: www.ombudsman.ie<<https://www.ombudsman.ie>/>

Or writing to: Office of the Ombudsman, 6 Earlsfort Terrace, Dublin 2, D02 W773

Or calling the Ombudsman on 01 636 5600 if you have any queries or if you need help making your complaint.

Notwithstanding that you are no longer a registered student, we are most concerned for your well-being and would encourage you to engage with your medical team. We would also like to suggest some supports that are available in Galway which may be of assistance to you.

* COPE Galway

Supports individuals and families facing homelessness, domestic abuse, and isolation.

Website: <https://www.copegalway.ie><<https://www.copegalway.ie/>>

Phone: 091 778 750

* St Vincent de Paul (SVP) Galway

Offers practical support to people in need, including food, clothing, and financial aid.

Website: <https://www.svp.ie/find-your-local-service/?location=local-offices>

Phone: 091 563 233

* Galway Solace Café

A mental health support café open in the evenings for anyone experiencing mental distress.

Website: <https://galwaysolacecafe.ie/>

Phone: 087 108 5134

Please do take care.

Kind regards,

Office of the Dean of Students, on behalf also of the Office of the President
